We recently had Rugged Roofing & Construction completely reroof our entire building. Our roof was damaged during a hail storm. They inspected my roof and met with the insurance adjuster. The adjuster agreed with their analysis and agreed to cover the cost of replacing the roof.

The guys at Rugged Roofing listened to any concerns we had and fully explained the whole process. Every phone call was returned promptly. These guys made a difficult process go very smoothly and easy. It was a great experience and I couldn't ask for anything more.

Sincerely,
