To Potential Rugged Roofing Customers,

My name is Lance Spaulding, owner of Pier 1 Marine in Duncan, Oklahoma. My property consists of six metal building which add up to approximately 34,000 square feet of area. In the summer of 2015, I was collecting bids to repair a large section of roof in my main shop building. By chance, Brennan Nowlin dropped by my office on a cold call requesting to inspect my property for potential storm damage after a recent hail storm. After his inspection I asked him for a bid on the repair job, and he told me he could do me one better. Brennan claimed that with the amount of storm damage present, he could help me to get a brand new roof paid for by my insurance provider. All he requested was to be allowed to perform the work that he helped get approved.

Having been an Oklahoma business owner for decades, this would not be my first interaction with insurance regarding a roof claim. In the past, I never felt like I walked away with a good claim settlement from my insurance. However, with Brennan Nowlin serving as my advocate for the duration of the claim process, I ended up with the better end of the deal this go around. My advice is simple. If your roof is in need of attention, call Brennan and let Rugged Roofing be the company who helps you out. They have a tried and true process, superior roofing products, and provide a second to none installation.

Brennan helped turn my head ache into piece of mind. I encourage you to allow him to do the same for you.

Regards,

*Lance Spaulding*
