To Whom it may concern:

I would like to recommend Rugged Roofing as a reliable and great company to do business with. We used Rugged Roofing as a contractor to replace our roof due to weather damage. Josh Sapp is very informative and helpful. He made the process very easy and virtually worry free on our part.

I highly recommend using Rugged Roofing for any of your roofing replacement needs. They will take care of every little detail from beginning to end and make sure everything is done correctly and efficiently.

The roofing crew was very good at what they do; every detail was complete in a perfect and detailed manner. They were very respectful and willing to answer any questions we had.

Thank you,
David Eckerman – Owner
